

Spring 2015

London's premier swimming pool company

LSPC services and maintains pools and spas to the highest standard. We service any type of pool and can solve any pool problem. Our engineers are highly trained and qualified to industry standards. Call us for regular or emergency servicing on 0208 605 1255.

IS YOUR POOL READY FOR SPRING USE?

It's time to book your spring pool opening. If you're ahead of the game you already have a date in your diary but if not, you can save 10% on the labour cost if you book now and complete your opening service by 15 May latest. It's simple - just drop us an email at servicing@londonswimmingpools.com or call the team on 0208 605 1255 to book.

BOOST THE ENERGY EFFICIENCY OF YOUR POOL AND GET 15% OFF A NEW MULTI-SPEED PUMP

Energy efficiency is a big issue these days, so if you're looking to do your bit for the environment and reduce energy consumption at home, follow in the footsteps of other clients – more and more are switching to multi-speed pumps.

Multi-speed pumps can be programmed to run at a lower speed when the pool is not in use, unlike standard pumps which continue working at the usual rate when the pool is not being used. By controlling the speed at which the pump runs, your pool will use less energy.

For the spring opening period only, we're offering 15% off a multi-speed pump when your upgrade takes place by 15 May 2015.

IN THIS ISSUE

We've won 5 more pool awards!

10% saving on your spring pool opening

15% saving on a new multi-speed pump

Tips to make your pool more energy efficient

EMERGENCY CALL OUT!

Got a pool problem or an emergency?

Call our rapid response team on 0208 605 1255.

We provide a 24/7 call-out and emergency service for pool and spa owners in London and the Home Counties, whether you have a regular service agreement or not.

We will send an engineer to your home within 7-24 hours of your call and in the majority of cases we get an engineer to you on the same day.

FIVE ENERGY SAVING TIPS

1. Clean filters

Regularly clean the filter, and remove waste from the strainer baskets and skimmer so that water can flow freely and your pool equipment can function optimally.

2. Use a pool cover

Use a solar pool cover to retain the heat from the sun and also prevent the evaporation of water from heat loss. Pool water tends to get colder overnight, and while a regular cover will mitigate this, a solar blanket is more effective.

3. Use energy efficient light bulbs

Switch off non-essential lights when the pool is not being used. Switch to LED or energy saving bulbs.

4. Adjust the pool heater temperature

Turn down the pool heater when the pool is not in use. You can also fit a timer to adjust the heat settings.

5. Switch from sand to glass media filter

If your sand media is due for a change, consider switching to glass media – glass provides even finer filtration, greater water clarity, has a longer life cycle (as long as 10 years) and reduces chemical usage.

EMERGENCY CALL OUT!

Got a pool problem or an emergency?

Call our rapid response team on 020 8605 1255.

We provide a 24/7 call-out and emergency service for pool and spa owners in London and the Home Counties, whether you have a regular service agreement or not.

We will send an engineer to your home within 7-24 hours of your call and in the majority of cases we get an engineer to you on the same day.

A WINNING STREAK – WE'VE WON FIVE MORE POOL AND SPA AWARDS

We pride ourselves on providing first rate servicing and maintenance of pools and spas for clients in London and the Home Counties. We're pleased to say we've designed and built many of the pools we service and many of our pools have won industry 'Oscars' and this year is no exception. Our team has just won another five awards including three Gold, bringing our total to 41 awards. This beautiful subterranean pool in a contemporary leisure space is one of this year's Gold Award winners. ***We'd like to express our thanks and appreciation to clients who allow us to enter their pools into industry awards.***

[SPATA](#) Gold Award – subterranean pool

SPATA Bronze Award for a gorgeous moving floor pool: left with the floor lowered and right, the Hydrofloors Movable Floor is raised to level deck. **Click [here](#) to see the moving floor in action.**

SPATA Gold Award for the Spa which complements the above-mentioned moving floor pool.

SPATA Gold Sustainability Award and the **UK Pool & Spa Energy Efficiency Award** for this lovely minimalist [energy efficient pool](#) which costs virtually nothing to run!

REGULAR SERVICING IS BEST FOR YOUR POOL

What to consider when hiring a regular pool service engineer

1. Research and compile a short-list of reputable companies
2. Look for companies that provide a dedicated service engineer
3. Invite your preferred short-list to visit your home
4. Check that engineers have [industry standard](#) professional qualifications
5. Obtain a survey that outlines the service you require
6. Check how long each service will take
7. Get a quote for regular servicing and an estimate for emergency call outs.

Convenient Payment for Servicing

If you would find it more convenient to pay for your servicing by direct debit, please email us at servicing@londonswimmingpools.com and we will email you the form.
