

London's premier swimming pool company

Christian Mills, Servicing & Maintenance

It's time for your outdoor swimming pool to go into hibernation for the winter. Giving your pool professional winterisation treatment, backed-up by periodic maintenance checks during the winter will ensure it's in tip-top condition come spring opening time.

It's essential to winterise your pool properly, particularly to protect the water from freezing and damaging the plant room equipment (eg avoiding leaking pipes) which would be costly to repair and result in you losing precious swimming time in the spring.

Read on for our special incentives to protect and revitalise your pool throughout the winter months.

IN THIS ISSUE

1. **Win free winterisation or spring opening**
2. **15% saving on filter media change**
3. **New Winter Check Package**
4. **Refurbish your pool this winter**

AT YOUR SERVICE

LSPC services and maintains pools and spas to the highest standards.

We service *any* type of pool and can solve any pool problem.

Service engineers are highly trained and qualified to the Institute of Swimming Pool Engineers technician standard and have been servicing pools for many years.

But first, a BIG Thank You...

... for your unerring support and custom over many years; some customers go back to the establishment of LSPC 30 years ago! We mark this momentous anniversary with a move from our office in Southfields which we have outgrown to our splendid new office at Shannon Commercial Centre in New Malden - you can reach us there on 020 8605 1255.

There is plenty of space for our expanded design, construction and servicing teams, plus on-site warehousing for chemicals and spares - everything on hand to give you a rapid service.

Let's Celebrate!

Win a Winterisation or Spring Opening in our Anniversary Prize Draw

To show our appreciation for your support over 30 years, we're giving away one winter shutdown or spring opening package (winner chooses) valued at £300 (inc VAT).

To enter email your contact details to servicing@londonswimmingpools.com by 6 October 2014. Please type the words *Anniversary Draw* in the email subject line. The draw will take place on 10 October 2014 and the winner will be informed by email by 13 October 2014. Good luck!

The Small Print

(1) One entry per household, (2) The prize is as stated - no alternative cash prize is available, (3) No correspondence will be entered into with entrants other than the winner, (4) Data protection applies; your information will not be shared with third parties.

HELP!

Got a pool problem or an emergency? Call our rapid response team on 020 8605 1255.

We provide a 24/7 call-out and emergency service for pool and spa owners in London and the Home Counties, whether you have a regular service agreement or not. We will send an engineer to your home within 7-24 hours of your call and in the majority of cases we get an engineer to you on the same day.

30 YEARS
of excellence

NEW WINTER CHECK PACKAGE

To ensure that your spring pool opening is problem-free and ready for swimming as soon as the sun shines, you will need periodic maintenance during the autumn and winter months.

During these visits, our engineers will open up the winter pool cover and check the balance of the pool water, replenish sanitiser and algaecide to keep the water healthy and clean any debris that has fallen onto the cover. These winter checks will make opening up your pool in spring faster, easier and cheaper.

To help we have introduced a Winter Check Package; four checks pre-booked for your convenience and carried out at eight week intervals for £250 plus VAT. Call 020 8605 1255 to book your Winter Check Package. If you prefer to PAYG, the cost is a little more at £65 plus VAT per individual winter check.

15% Saving on Filter Media Change

Why wait until spring to tackle filter media changes or pool refurbishments? Do it now and take advantage of our special price - 15% off the cost of labour.

The winter period is an ideal time to change the filtration media if you have reached that point in its life cycle. Likewise, it's a great time for switching from sand to glass media – glass provides even finer filtration and greater water clarity. Glass media also has a longer life cycle, reportedly as long as 10 years before there is a need for replacement.

To qualify for 15% reduction on the labour cost of a sand filter change or switch over to glass media, please book and have our engineers complete this work by 28 February 2015. Call on 020 8605 1255.

Revitalise Your Pool Now

It is entirely possible to revitalise or fully renovate your swimming pool during the autumn and winter months.

Don't be fazed by shorter daylight hours or rainy weather - we are enterprising! We simply hire a marquee to cover the pool area; install lighting and work securely under cover.

The refurbishment work can embrace everything from re-grouting and re-tiling to full-blown renovation.

Working throughout the winter ensures your pool is ready to 'go live' in spring so that you don't lose a single day's swimming.

Convenient Payment for Servicing

If you would find it more convenient to pay for servicing by direct debit, please email us at servicing@londonswimmingpools.com and we will email you the form.
