### We're here to service your pool

#### **Jim Moss, Head of Servicing & Refurbishment**

With 29 years experience in the pool industry, including running his own pool company in Scottsdale, Arizona from where he hails, Jim Moss has been running LSPC Servicing for over two years and brings first class pool servicing and maintenance to customers.

Jim said, "We service and maintain your pool to the highest standard so you can enjoy using it as much as possible, safe in the knowledge that everything has been taken care of."

### **DON'T MISS OUR SPRING OFFERS!**

Book and complete your spring opening by 15 May 2014 to take advantage of price reductions.

Also see our product offers below.

### **AT YOUR RESCUE**

Got a pool problem or an emergency?  
Call our rapid response team on 020  
8874 04014

We provide a 24/7 call-out and emergency service for pool and spa owners in London and the Home Counties, whether you have a regular service agreement or not. We will send an engineer to your home within 7-24 hours of your call and in the majority of cases we get an engineer to you on the same day.

[Visit Website](#)

"Our service engineers are highly trained – they are qualified to the Institute of Swimming Pool Engineers technician standard and have been servicing pools for many years. We can service any type of pool and solve any pool problem!

"Call us to open up your pool for spring, for regular pool service and maintenance or emergencies. If you have an emergency, one of our engineers will be with you within 7-24 hours of your call. In most cases, an engineer will be with you on the same day."

- New pumps, filters and boilers if needed - 15% off

We look forward to hearing from you soon!

## 5 tips for opening up your pool for spring

**Think ahead** – Hopefully, you will have already had a winter service as this makes opening up your pool in spring much quicker, easier and cheaper. Remember to book your winter service every year to ensure savings in the spring.

**Call us as early as you can** – It will take 1 to 3 days to clean your pool for spring so please schedule your opening as early as possible. This is a very popular time of year so it may take ten days from booking your opening for your pool to up and running.

**Spring clean** – Be sure to do a quick clear out of your plant room to ensure that it's 100% accessible to the engineer.

**Plan your opening time** – Look to open up your pool between mid April to the first week of May to make sure we can have everything ready for the May holiday and, hopefully, some sunshine!

**Early opening doesn't mean expensive heating costs** – You won't need to turn on your pool heating as soon as you open it for spring. Just turn on the heating one week before using the pool.

## The importance of servicing and maintenance

Whether your swimming pool or spa is brand new or established for years, it will benefit from regular professional servicing, keeping the water in pristine condition and protecting its longevity. The better the service record, the longer your pool or spa will sparkle and give you years of pleasure.

Servicing and maintenance involves general cleaning of the pool (eg brushing, vacuuming), checking the performance of filters and pumps, testing and balancing of the water and looking after the pump/pump basket and filters to make sure they are clean and operating efficiently. The filters gather all the dirt and particles out of the water and leaves out of the surface of the water.

For pools that are heavily used, we recommend servicing once a week, and fortnightly for pools that are lightly used.

## Protecting your pool from algae

This year we will be using a long life algaecide which helps to control and prevent algae in your pool.

LSPC is celebrating 30 years of Excellence in pool and spa design, refurbishment and service. We would like to thank all our customers for helping us to become London's premier swimming pool company

## Convenient Payment for Servicing

If you would find it more convenient to pay for servicing direct debit, please email us at [servicing@londonswimmingpools.com](mailto:servicing@londonswimmingpools.com) and we will email you the form.
