

Sponsor's promotion

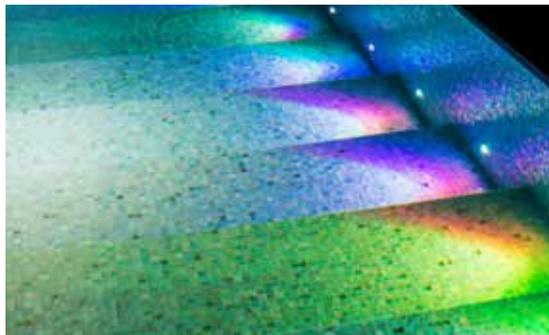

For more than 30 years, London Swimming Pool Company (LSPC) has led the way in pool and spa design, construction, refurbishment and servicing. LSPC's expertise and award-winning design and customer service culture has enabled it to win more than 50 prestigious industry awards for design, construction and servicing of pools for clients in London, Surrey, Sussex, Berkshire and Hertfordshire.

LSPC undertakes a wide range of pool design and refurbishment projects from the simplest indoor or outdoor luxury pool to complex pool projects including moving floor pools and stainless-steel pools for both private and commercial clients.

Commercial clients include leading hotels such as the Novotel London Canary Wharf and InterContinental London –The O2 in Greenwich, as well as private schools and private hospitals.

The design and build team bring the latest technology to pool design and installation including high efficiency and environmentally friendly heating and ventilation systems, spectacular water features, underwater windows, and a wide selection of LED underwater lighting systems from brand leaders.

**Outstanding design.
Superlative craftsmanship.
First class customer service.
Everything you need from
London's premier swimming
pool company.**

**Award-winning
swimming pool design
and construction**

DESIGN

Engineering excellence, detailed planning, high levels of accuracy and outstanding teamwork with third parties such as architects, designers and main contractors, result in outstanding pool and spa design.

CONSTRUCTION

REFURBISHMENT

LSPC's professional servicing engineers commission the newly completed pools and then a dedicated engineer is assigned to the client for regular servicing and maintenance requirements. This ensures the pool is maintained in peak condition and use of the pool is not interrupted.

SERVICING

MAINTENANCE

If you need advice on any aspect of luxury pools and spas – from design to refurbishment to servicing, contact us on **020 8605 1255** or **jamie@londonswimmingpools.com** for an initial discussion – there's no substitute for expert advice.

Design and build without compromise
