

Pamper yourself in a luxury pool

As summer arrives our thoughts turn to home improvements, from small interior décor touches to more indulgent acquisitions that bring a new dimension to the property. It's also a time when we aim to spend more time relaxing with family and friends. What better way to achieve both ambitions than installing a bespoke swimming pool – instant gratification and you create a fabulous focal point for gatherings. You and your guests can enjoy an exhilarating swim, play vigorous pool games or simply relax by the poolside with a cool ice tea.

There are many types of pools available, but none as sumptuous and efficient as those tailor-made by premier supplier, London Swimming Pool Company (LSPC). Here are three of LSPC's finest, guaranteed to accentuate the beauty of any home and provide years of pleasure.

Whichever pool takes your fancy, remember that beautiful pools only stay that way with regular care and attention.

LSPC's professional servicing and maintenance team will keep your pool in pristine condition.

For more information on luxury pools contact LSPC at mynewpool@londonswimmingpools.com or call 020 8605 1255.

Going Underground

This magnificent, award-winning underground pool allows the family to swim full lengths and to play pool games. The patio, bar and drum kit round off nicely this welcoming entertainment space.

Space Saver

This glamorous pool can disappear when you want it to. It incorporates a moving floor which changes the water depth, from deep for adults to paddling pool for youngsters. And you can completely and securely cover the pool, creating space for soirées!

Steel Yourself

Yes, this elegant pool is made from stainless steel! LSPC builds these stunning pools using pioneering technology from Berndorf Bäderbau. Stainless steel pools have so many unique benefits, one of the best being the ability to build the pool faster than a conventional pool – that means you can get swimming quickly.
